

DT
a printer that prints the encoded tokens onto the paper document; and
a selector that allows a user to select one or more tokens from a list.

10. (Four-Times Amended) A system for producing and processing a paper document, comprising:

2
token generating means for generating user-selectable tokens relating to at least one other document, the other document being an electronic document, for purposes of linking the other document;

encoding means for encoding the generated tokens;

printer means for printing the encoded tokens onto the paper document; and

a selector means for selecting one or more of the user-selectable tokens from a list.

19. (Four-Times Amended) A method for producing and processing a paper document, comprising:

3
generating user selectable tokens relating to at least one other document, the other document being an electronic document, for purposes of linking the other document;

encoding the generated tokens;

printing the encoded tokens onto the paper document; and

selecting one or more of the user-selectable tokens from a list.

REMARKS

Claims 1-27 are pending in this application. By this Amendment, claims 1, 10 and 19 are amended for clarification purposes only. Reconsideration in view of the above amendments and following remarks is respectfully requested.

The attached Appendix includes marked-up copies of each rewritten claim 37 C.F.R. 1.121(c)(ii).
